EDUCATION

Class 10th, *T.D.S Academy H.S. School*
07/2020 – 07/2021
Gwalior Road Mehgaon Bhind Madhya Pradesh, India

Class 12th, *T.D.S Academy H.S. School*
07/2023 – 07/2024
Gwalior Road Mehgaon Bhind Madhya Pradesh, India

SKILLS

Languages
Python, JavaScript, TypeScript, Java

Frontend
React.js, Next.js, HTML, CSS, Tailwind CSS, GSAP

Backend
Node.js, Express.js

Databases
MongoDB, MySQL, PostgreSQL, Firebase (Firestore, Auth, Storage)

Git, GitHub, Vercel, VS Code, Figma, Firebase, AI APIs

LANGUAGE

English
Professional proficiency

Hindi
Native proficiency

SOFT SKILLS

- Problem Solving & Logical Thinking
- Creativity & Innovative Mindset
- Team Collaboration & Communication
- Adaptability & Quick Learning
- Research-Oriented Approach
- Self-Motivation & Initiative Taking
- Presentation & Public Speaking Confidence
- Time Management & Task Prioritization

PROFESSIONAL SUMMARY

Motivated and creative student passionate about Computer Science, Artificial Intelligence, Full Stack Development, and Data Science. Completed higher secondary education and developed multiple real-world projects such as CoveDex Al and BuildFlow Al, built using modern technologies like React, Node.js, and cloud- based Al APIs. Skilled in Python, TypeScript, and UI/UX design, with a strong focus on building intelligent, user-friendly digital products.
Eager to pursue a Bachelor's degree in Computer Science to deepen technical knowledge, strengthen research skills, and contribute to innovative Al-driven solutions.

PROJECT

CoveDex AI — Full-Stack AI Platform
- 60+ AI tools for text generation, code assistance, image AI, and automation in one workspace.
- Built with React, TypeScript & Node.js; supports multi-model AI, real-time execution, and scalable workflows.
- Modern, responsive UI with integrated APIs (OpenAI, Gemini) and secure payments.

GitHub: github.com/mohitsharma5614r-cloud/Covedex-AI.git 🔗

AI Data Science Platform — Autonomous AutoML System
- Fully automated EDA, feature engineering, multi-model training, evaluation & visualization from any CSV dataset.
- Generates complete ML insights with PDF reports—ideal for rapid prototyping & data science automation.

Live: Coming Soon
GitHub: github.com/mohitsharma5614r-cloud/AI-Data-Science-Platform.git 🔗

BuildFlow AI — Full-Stack App Generator
- AI-powered platform that creates full-stack web apps automatically—front-end, back-end, architecture & deployment.
- Improves code quality, generates project structures, and accelerates production-ready development.

CircleVerse — AI-Powered Private Social Platform
- Create private digital circles with real-time chat, secure auth, personalized feeds & AI-based conversation summaries.
- Built with Next.js, Firebase & Gemini AI, designed for privacy-focused, modern social interactions.

Live: Coming Soon
